The Consideration of Urban Climate in Green Building Standards and Urban Planning Formulations: A Review in China

Yuan Huang*, Fangli Chen, Wei Zhao, Jiao Yang
Department of Urban Planning, School of Architecture and Design, Southwest Jiaotong University, China

Introduction

Climate Actions in the Key Policies of "Climate Actions"

Climatic Consideration in Urban Planning Formulation

Climatic Consideration in the Representative Green Building Standards

Conclusion & Acknowledgement

Conclusion & Advice

For the formulation of urban climate, a global view to address Climate Change should be established, special planning topics especially on “adaptation & adaptation” should be developed.

It is better to keep pace with the latest National Plan to address Climate Change for the Revision of Green Building Standards and Urban Planning Formulation.
